NOTE: When ordering, please specify body panel color and optional extras.

### Top

Top fabricated from a minimum of 14 gauge stainless steel with square turndown on all sides and corners fully welded, ground and polished. Top to have #4 satin finish and all edges having #7 hi-lite finish

### Body and Frame

Frame to be 14 gauge stainless steel construction. Full perimeter top and bottom frame fully welded, ground and polished to vertical corner uprights making body frame one integral unit. Non-marking corner bumpers secured to bottom frame. Body panels to be fiberglass reinforced polyester (F.R.P.) with smooth exterior surface. All fiberglass to be flame retardant per specification ASTM E-162 having a flame spread of 25 or less.

### Dispensers

The top opening shall contain a stainless steel self-leveling dispenser. Dispensing mechanism shall be constructed with automatic self-leveling elevators, enclosed in a stainless steel housing. The elevator mechanisms shall be field adjustable without the use of tools and be connected to a removable heavy gauge stainless steel carrier.

### Casters

4" diameter, ball bearing, swivel type casters to be non-marking and with brakes on all wheels.

We reserve the right to change specifications and product design without notice. Such revisions do not entitle the buyer to corresponding changes, improvements, additions or replacement for previously purchased equipment.

All equipment to be built in accordance with the Underwriters Laboratories, Inc. and the National Sanitation Foundation, Inc. standards and shall bear the Underwriters Laboratories, Inc. listing label for safety and the Underwriters Laboratories classification label for sanitation.
