If your cafeteria is in need of a spruce up or a complete renovation, our experienced team can talk you through your options. As you'll see in this booklet, we have solutions ranging from very simple serving lines to custom serverys with all the bells and whistles - and everything in between.

Let our experts guide you through the entire Visions process:

- Our team will meet with you and show samples of work to get your imagination flowing.
- We'll take pictures of your space, start designing and present you with options.
- Once our concept meets your needs and goals, we'll begin the manufacturing and installation process.

Albany High School

WHAT WE DID

The goal with this new construction project at Albany High School was to create multiple serving lines to move students through more efficiently, while giving them a variety of food options. We built nearly 100 feet of serving counters, five stations – each with its own design and theme/signage. We also installed digital menu boards above each station, which allow quick and easy menu updates. The Nutrition Director wanted to be able to offer action-style cooking stations and empower students to be a part of their lunch experience with features such as panini grills, griddles and a turbo pizza oven. This concept at the high school level allows students to see their food being made in front of them. Also on the wish list was to give the cafeteria a bright, vibrant look and feel using the school's mascot colors of orange and green, and that's what our Visions Planning & Décor design team did.
