* Tray capacity may vary depending on stacking height of trays.

NOTE: When ordering, please verify exact length, width, weight of one tray for proper calibration.

Base and Frame

Base to be fabricated from heavy gauge stainless steel with all sides turned square with all corners fully welded, ground and polished. Underside reinforced with heavy gauge channels. Base to have non-marking corner bumpers. Frame shall be constructed of 1" O.D. 16 gauge stainless steel tubing bolted to the base.

Silverware and Napkin Dispenser

Center pylon shall be seamless molded fiberglass (F.R.P) with smooth exterior surfaces and rounded corners. Top to have eight (8) cut outs complete with nylon silverware cylinders and one (1) 1/4 size x 6" deep pan for napkins. All fiberglass to be flame retardant per specification ASTM E-162 having a flame spread of 25 or less.

Dispenser Mechanism

Easily removable self-leveling mechanisms shall be field adjustable without the use of tools and shall be supplied with a stainless steel tray platform.

Casters

4" diameter, ball bearing, swivel type casters to be non-marking and with brakes on all wheels.

We reserve the right to change specifications and product design without notice. Such revisions do not entitle the buyer to corresponding changes, improvements, additions or replacement for previously purchased equipment.

All equipment to be built in accordance with the Underwriters Laboratories, Inc. and the National Sanitation Foundation, Inc. standards and shall bear the Underwriters Laboratories, Inc. listing label for safety and the Underwriters Laboratories classification label for sanitation.
