Sanitation Classified to NSE Standards

Specifications

Top - Top to be 30" wide and fabricated from a minimum of 14 gauge stainless steel with square turndown on all sides and corners fully welded, ground and polished. Top to have #4 satin finish.

Body (MF) - Body to be seamless molded fiberglass (F.R.P.) with smooth exterior surfaces and rounded corners. To be constructed by a hand lay-up process with four layers of 1.5 oz continuous strand fiberglass mat, plus a 24 oz layer of woven roving on the bottom for added strength. Fiberglass to be flame retardant per specification ASTM E-162 having a flame spread of 25% or less. Body interior

- Switch from hot to cold in a matter of minutes
- Individual well flexibility
- Labor-saving, easy-to-clean design

to be reinforced at each end with 4 wide, 12 gauge galvanized uprights welded to support shelving to form integral U frame for maximum stress relief.

General Specifications - Counter to include convertible Hot/Cold/Freeze wells. Wells to be individual 12" x 20" opening. Well to have the ability

gauge 304 stainless steel, fully welded, ground and polished. Unit to be fully insulated with 11/2" urethane insulation. The exterior jacket to be constructed of heavy gauge stainless steel. Refrigeration system to be a hermetically sealed compressor operating on R-449A (HFC) refrigerant, and will include controls. Well to also operate as an energy efficient hot food well using a 500 watt heat source digitally controlled.
